Preliminary draft - please do not distribute

Abstract

O, never Shall sun that morrow see! Your face, my thane, is as a book where men
May read strange matters. To beguile the time, Look like the time; bear welcome
in your eye, Your hand, your tongue: look like the innocent flower, But be the
serpent under't. He that's coming Must be provided for: and you shall put This
night's great business into my dispatch; Which shall to all our nights and days to
come Give solely sovereign sway and masterdom.

1 Introduction

Quarto enables you to weave together content and executable code. To learn more about Quarto see <https://quarto.org>.¹ If you are interested in incentives in health insurance risk adjustment schemes, check out Reif et al. (2025). You can easily refer to parts of the paper such as Figure 6 or Table A.1. Sometimes one might need equations. Just use $\LaTeX$ for this in the text to show that $2^2 > 3$. You can do it like this:

$$\frac{\partial S(\beta)}{\partial \beta} = -2X^\top(y - X\beta) = 0$$

$$X^\top X\hat{\beta} = X^\top y$$

$$\hat{\beta} = (X^\top X)^{-1}X^\top y$$

Nunc ac dignissim magna. Vestibulum vitae egestas elit. Proin feugiat leo quis ante condimentum, eu ornare mauris feugiat. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas. Mauris cursus laoreet ex, dignissim bibendum est posuere iaculis. Suspendisse et maximus elit. A scatter plot with 'X Axis' and 'Y Axis' labels. The X-axis has major ticks at 5.0, 7.5, 10.0, and 12.5. The Y-axis has major ticks at 2, 4, 6, 8, 10, 12, and 14. There are two data series: Group A, represented by red circles, and Group B, represented by blue circles. Group A is clustered in the lower-left area, with X values between approximately 3.5 and 6.5 and Y values between 2.5 and 8. Group B is clustered in the upper-right area, with X values between approximately 7.5 and 12.5 and Y values between 8 and 14. A legend on the right shows a red dot for 'Group A' and a blue dot for 'Group B'.

ante dapibus semper. Vestibulum viverra rutrum enim, at luctus enim posuere eu. Orci varius natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus.

The dot plot displays the distribution of scores for three groups. The y-axis represents scores from 0 to 9. Group A (red dots) has a median score of 5, with most scores between 4 and 6. Group B (blue dots) has a median score of 7, with most scores between 6 and 8. Group C (black dots) has a median score of 9, with most scores between 8 and 10.

Group	Score	Frequency
Group A	3	1
